📄 SUMMARY

Full-Stack Engineer with **6+ years** building high-performance web applications in **fintech, trading, mapping, and payments**. Skilled in **React, TypeScript, JavaScript (ES6+), NodeJS, Python**. Proven record of delivering scalable applications used by **millions of users**.

📁 EXPERIENCE

Software Engineer

Apr 2024 – Present

JP Morgan Chase & Co. - jpmorgan.com

Mumbai, India

Project: Execute SPG - jpmorgan.com/markets/execute

- Delivered **complex frontend features with React, Redux** from requirements breakdown to production delivery.
- Contributed to the development and maintenance of Execute SPG, a mission-critical **trading and bond bidding** platform used by institutional clients with average trade **over \$10m**.
- Built **micro frontend applications** with **domain-based design** using a **Single-SPA framework**.
- Partnered with product managers & designers to define the roadmap and deliver incrementally.
- Collaborated with design teams to build **design systems and reusable UI components**, benchmarking **Material UI and Ant Design**.
- **Integrated feature flags and experimentation frameworks** to enable safe rollouts and A/B testing.
- Achieved **85%+ test coverage** using Jest, React Testing Library, and Playwright, reducing manual QA by 90%.

Software Engineer

Jan 2022 – Mar 2024

Here Technologies - here.com

Mumbai, India

Project: Here We Go web - wego.here.com

- Developed **micro frontend applications** using **React, Typescript** for navigation platforms serving millions of global users.
- Leveraged **Apollo GraphQL BFF** to develop scalable Node.js services
- Integrated **Apollo GraphQL Federation** and REST APIs to provide modular, scalable **Backend-for-Frontend (BFF)** services.
- Built **shared UI component libraries** with design teams, ensuring UX consistency across multiple domains.
- Used **Next.js and Contentful** to build **serverless CMS solutions** for marketing and branding websites.
- Improved user journey performance by **25%** through optimizations and modular architecture.

Software Engineer

Mar 2019 – Dec 2021

Diebold Nixdorf - dieboldnixdorf.com

Mumbai, India

Project: Vynamic POS and Self-Checkout - dieboldnixdorf.com/retail/portfolio/software

- Built **POS and self-checkout systems** with **React, .Net and React native** deployed in thousands of APAC retail stores.
- Integrated **secure payment SDKs** with backend microservices, ensuring **PCI compliance** and secure payment flows.
- Partnered with clients across UAE, Singapore, and Japan to localize features and meet business needs.
- Improved application performance by **75%** via architectural refactoring and optimization.

EDUCATION

Master's in Computer Science and Engineering.

NMIMS University

July 2017 – May 2019

Mumbai, India

Performance: CGPA 3.32 / 4.00

- Published technical Paper - - [irjet.net/archives/V6/i/IRJET-V6I130.pdf](https://www.irjet.net/archives/V6/i/IRJET-V6I130.pdf)

SKILLS

- **Frontend Development:** React (Hooks, Context, Redux, RTK Query), TypeScript (ES6+), React Native, Next.js, Angular, Micro Frontends, Single-SPA, Domain-Driven Design
- **Backend:** Node.js, Express.js, NestJS, Apollo GraphQL, Python (FastAPI/Flask), REST
- **Database:** SQL, PostgreSQL, NoSQL, MongoDB, Firebase/FireStore
- **Design Systems & UI/UX:** Figma to UI, Material UI, Ant Design, Bootstrap 3, Storybook, Emotion, Styled-Components, SCSS, Ag-grid
- **Testing & Quality:** Jest, React Testing Library, Cypress, Playwright, Test Render; Unit, Integration & E2E testing (80%+ coverage); TDD, CI automation
- **Growth & Data-Driven Tools:** A/B Testing, Feature Flags, Funnel Optimization, Analytics Integration (GA, Segment)
- **Cloud & Deployment:** AWS, GCP, Docker, Kubernetes, GitLab CI/CD
- **Architecture & Tooling:** NPM, Yarn, Webpack, Vite
- **Collaboration & Practices:** Agile/Scrum, Jira, Confluence, GitHub/GitLab, Requirements breakdown & estimation, Frontend Guild initiatives
- **Language:** English - Fluent

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02)

- <https://www.credly.com/badges/662b1d6d-8a57-4d8b-ba36-7a065eb4ecea>

FrontEnd Developer by HackerRank

- hackerrank.com/certificates/e30c455483d9

IELTS English Test by IDP

- **Scored:** Band 8 | **CEFR level:** C1
